BOAT TO SCHOOL JEOPARDY

Card 6

- A. An animal that lives by eating other animals
- B. A rainbow trout that has gone to live in the ocean
- C. An animal lacking a backbone
- D. Life expectancy of a Dungeness crab
- E. The hard upper shell of a crustacean
- F. Small steaks cut from the albacore loin

BOAT TO SCHOOL JEOPARDY
Card 5 Answers

- A. chelipeds
- B. exoskeleton
- C. estuary
- D. hatchery
- E. gills
- F. habitat

BOAT TO SCHOOL JEOPARDY
Card 3 Answers

- A. sustainable
- B. excluder
- C. flatfish
- D. *Pandalus jordani*
- E. trolling
- F. baitball

BOAT TO SCHOOL JEOPARDY
Card 1 Answers

- A. bycatch
- B. rockfish
- C. dorsal fin
- D. alevin
- E. long fin
- F. tagline

Card 6 Answers

- A. predator
- B. steelhead
- C. invertebrate
- D. ten years
- E. carapace
- F. medallions

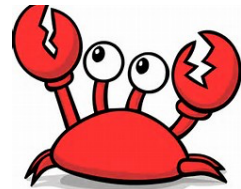

Card 4 Answers

- A. waterline
- B. swimmerets
- C. arthropods
- D. trawler
- F. quota
- F. crab buoy

Card 2 Answers

- A. molting
- B. zoea
- C. outriggers
- D. true
- E. Cephalothorax and abdomen.
- F. 6 feet

BOAT TO SCHOOL JEOPARDY

Card 7

- A. What is the operculum on a fish?
- B. *Thunnus alalunga* is the scientific name for what fish?
- C. In what direction does a Dungeness crab walk?
- D. Name for young salmon migrating to the ocean
- E. An animal taken by a predator as food
- F. Name given to plastic or rubber squid lures

BOAT TO SCHOOL JEOPARDY

Card 9

- A. The Oregon pink shrimp fishery was first in the world.
- B. Boneless wedge-shaped pieces of albacore tuna
- C. Crab pots are retrieved using this device.
- D. Where fish are stored on the boat
- E. A piece of material like a net with spaces in it
- F. Which state has had the most shrimp landings since 1970: Washington, Oregon or California?

BOAT TO SCHOOL JEOPARDY

Card 11

- A. An albacore tuna's preferred water temperature

BOAT TO SCHOOL JEOPARDY

Card 12

- A. Number of shrimp vessels in the Oregon fleet
- B. Another name for albacore trollers
- C. Fishing for this fish is fast-moving and hard-hitting
- D. Fishermen use pots to catch this seafood
- E. The process of transformation from egg to adult in 2 or more stages.
- F. Which female species studied can produce 2.5 million eggs?

BOAT TO SCHOOL JEOPARDY
Card 11 Answers

- A. 58° to 64° F
- B. abdominal flap
- C. It stabilizes the boat
- D. surimi
- E. 600 feet
- F. Marine Stewardship Council

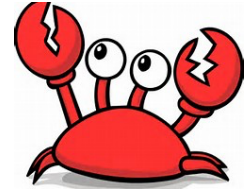

BOAT TO SCHOOL JEOPARDY
Card 9 Answers

- A. MSC certified
- B. loins
- C. hooked pole
- D. the hold
- E. mesh
- F. Oregon

BOAT TO SCHOOL JEOPARDY
Card 7 Answers

- A. gill cover or gill plate
- B. albacore tuna
- C. sideways
- D. smolt
- E. prey
- F. hootchies

BOAT TO SCHOOL JEOPARDY

Card 12 Answers

- A. 75
- B. jig boats
- C. albacore tuna
- D. Dungeness crab
- E. metamorphosis
- F. Dungeness crab

BOAT TO SCHOOL JEOPARDY

Card 10 Answers

- A. anal fin
- B. summer
- C. escape ring
- D. Chinook
- F. fish that have both eyes on the same side of their head
- F. compound eye

BOAT TO SCHOOL JEOPARDY

Card 8 Answers

- A. winch
- B. antennae
- C. omega 3
- D. 25%
- E. herring, anchovies
- F. observer

BOAT TO SCHOOL JEOPARDY

Card 13

- A. A crabbing vessel
- B. Method of freezing albacore aboard the vessel using a salt brine
- C. Why adult salmon leave the ocean and head back upstream
- D. A boat drops a line with 20-30 baited hooks by they don't go to the bottom
- E. Pink shrimp have five pairs of these
- F. A pair of very long fins situated on either side of an albacore tuna

BOAT TO SCHOOL JEOPARDY

Card 15

- A. Another name for black cod
- B. A groundfish that can change color and camouflage itself
- C. Method of freezing albacore aboard the vessel that pushes cold air at a high velocity across the fish
- D. Adult crab populations molting simultaneously
- E. salmon eggs
- F. At the plant pink shrimp get...

BOAT TO SCHOOL JEOPARDY

Card 17

- A. The FDA recommends how many servings of fish per week?
- B. Another name for whiting
- C. Groups of tuna
- D. Port located on the Tillamook Bay
- E. Which species studied is cannibalistic
- F. What sense do scientists believe salmon use to find their way back to the streams where they were born?

BOAT TO SCHOOL JEOPARDY

Card 14

- A. The long sword-like structure attached to the head of a shrimp
- B. The Dungeness crab capital of the world
- C. Where female salmon deposit their eggs
- D. A boat pulls a net through the water along the seabed
- E. What two animals studied shed their exoskeleton as they grow
- F. The number of species of Pacific rockfish

BOAT TO SCHOOL JEOPARDY

Card 16

- A. The most highly regarded and most expensive sole
- B. Small schooling fish that are eaten by many types of predators
- C. The color of Dungeness crab in their natural habitat
- D. Type of salmon that starts with "s"
- E. The kind of river bottom that salmon prefer to lay eggs in
- F. The only area where *Pandanus jordani* are found

BOAT TO SCHOOL JEOPARDY

Card 18

- A. As the salmon travel upstream, they change _____.
- B. Another name for rockfish
- C. The name of the large ship that processes fish at sea
- D. What is the most abundant fish resource on the west coast?
- E. Where warmer and cooler currents come together
- F. Many small anal fins

BOAT TO SCHOOL JEOPARDY

Card 17 Answers

- A. two
- B. hake
- C. schools
- D. Garibaldi
- E. Dungeness crab
- F. smell

BOAT TO SCHOOL JEOPARDY

Card 15 Answers

- A. sablefish
- B. Pacific sandal
- C. blast freezing
- D. mass molting
- E. fry
- F. ...cooked, peeled and frozen

BOAT TO SCHOOL JEOPARDY

Card 13 Answers

- A. crabber
- B. brine freezing
- C. to spawn
- D. mid-water trawl
- E. legs
- F. pectoral fins

BOAT TO SCHOOL JEOPARDY

Card 18 Answers

- A. colors
- B. snapperThe
- C. mother ship
- D. Pacific whiting
- E. temperature break, front or edge
- F. finlets

BOAT TO SCHOOL JEOPARDY

Card 16 Answers

- A. petrale sole
- B. forage fish or bait fish
- C. purplish brown
- D. sockeye
- F. gravel
- F. North Pacific

BOAT TO SCHOOL JEOPARDY

Card 14 Answers

- A. rostrum
- B. Newport
- C. redd
- D. bottom trawl
- E. Dungeness crab and Oregon pink shrimp
- F. 70
